

600 North Union Ave  
Hillside, NJ 07205 USA

# Room Identification

Profiles 4.4 & 4.5 are used for room identification, with tactile and Grade 2 Braille copy that requires many changeable messages per sign.

Sign Profile 4.6 also includes bi-lingual applications. Profile 4.7 offers tactile and Grade 2 Braille message on the sign and room identification, names of personnel, or entire department listings.

Profile 4.8 utilizes the vacancy/in-use slider bar to show occupancy of a room. Sign Profiles 5.0 through 6.0 allow for more information on each sign.

All profiles signs are available without borders, and can be specified with square edges, as standard products.
